## TO SUBSCRIBERS.

The proprietors of the MAIL desire to state that they have made arrangements with the publishers of the New West Farmer to club that journal and the Weekly Mail for the low price of \$2.50 in advance per year. This is an offer which no doubt farmers will appreciate as it gives them the best agricultural paper in the country as well as the best weekly in Western Manitoba, at a subscription very little in advance of that of one of them.

## The Brandon Daily Mail.

THURSDAY, APRIL 10, 1908

### BRANDON BUDGET.

BRANDON stables are elevating a horse to sign on their establishment.

Mr. R. P. McLELLAN our handsome whole-sale "sampler" left yesterday afternoon on a business trip to Winnipeg.

A HANDSOME perch is developing at the Brandon House, under the influence of the artists of the saw and hammer.

MR. B. CONWAY, formerly train-master at Brandon, but now in the employ of Langdon, Sheppard & Co., turned up in good form yesterday.

MANY papers on ROSSER AVENUE yesterday morning observed a very handsome out-look of a sign (it does not "project") over Meredith & Co's store.

MR. W. SMITH, our genial "Harden," shed the light of his countenance upon our sanctum yesterday. He also shed his subscription to THE MAIL. Consolators, and dolefuls.

EVERYTHING except prices for job printing and advertising in THE MAIL in Brandon seems to be on the rise. Now the river has got at it. From 6 p.m. Tuesday night to 8 a.m. yesterday it rose 22 inches, and the ice opened both sides of the river.

The wistful looking weather yesterday morning made most householders pretty blue, as there is a genuine coal famine in town. Most heads of households prefer, singularly enough, the famine and the empty coal store, to the heat of \$22 per ton.

MR. D. SMITH, the enterprising furniture manufacturer who is with his son going extensively into business in Brandon, arrived here yesterday. He will be at once followed by four car-loads of stock which will be made up here. He and the editor saw the count through the same glass yesterday afternoon.

To make the enormous amount of travel in the westward by movement which has already set in, we note in the east-bound train how the men are carrying, taking that way about half an average car-load, the same having come out the previous day with an average of 7 persons to the car.

The agent at Brandon in his despatch of yesterday to the Free Press states that four spans of the bridge over Souris River at Souris City were carried away by the ice. Only one span was swept away and that will be restored before the F. P. of yesterday reaches many of its Ontario readers.

QUICKLY BROS, whose general countenances are so familiar to so many of our readers, have it seems found it necessary, in order to accommodate their business, to amalgamate the two stores in rear of their premises, with their own quarters. They know when they have a home and are just enterprising enough to meet it.

The band is to be re-organized, under the handsome and popular leadership of Prof. Billy Edgerbrook. Most of the old time artists will be on deck. The room mate of the young man, with a weakness for brass instruments now has his fiftieth sleep disturbed by frightful anticipations of the sufferings in store from impending "typhoid."

MR. PHILLIPS, whose house was recently burglarized by the thieves McKean and Turnbull, whose clever arrest and detection escape have been detailed in our columns, is about to take legal measures to recover goods or their value, taken from the thieves and placed in custody of these alert Queen's officers. We beg to direct the attention of Deputy Attorney General Ashleigh to these two recalcitrant officials.

Notice is given in the last Gazette for the incorporation of "The Brandon and North-west Loan Company," the object of which is to loan money on real estate in Manitoba. The lead office is to be at Brandon. The proposed capital stock is \$100,000. The applicants are, John W. Sifton, William Winter, James A. Smart, William J. White and Joseph E. Woodworth, all of Brandon.

MR. PERRY, the genial and popular agent of the F. P. R. at Brandon, was notified last afternoon with only one rubber. He tried to palm off some ghastly explanation of how he lost the other one, but his ingenious theories were received with noticeable frigidity and incredulity by his wicked and suspicious friends. He says he has got an old rubber now, and almost paralyzed our modest representative by demanding to know, if he lost the other one, would they be mated?

Our readers will recollect that a few weeks ago, a party of French immigrants, ticketed to Brandon, were intercepted at Winnipeg and sent south over the Southwestern R. R. Seven of these from Meriden, Conn., and ten from Holyoke, arrived in town yesterday, and we beg to draw the attention of the Government to their statement. They were induced to come through on representations by an agent, of being able to secure first-class farms. On arriving at their destination they found themselves landed in Dakota, in a district barren of everything but sand and stones, and on an Indian reservation at that. They arrived at the Ottawa Hotel here yesterday, intensely disgusted, and determined to at once return to Connecticut. Mr. Bennett, the ever-alert immigration agent here, spotted the case, and will have an interview with them today, when it is to be hoped that they will be induced to join the new French colony on lands near Qu'Appelle, which are among the finest in the Northwest. They are steady and industrious men, with some means, and families, and will make good settlers. We hope Mr. Bennett may succeed in so competing them for their disappointment.

Mr. Shillingham who is putting up Mr. Scott's building corner of Princess Ave. and 8th street, has undertaken to complete D. Scott & Son's furniture warehouse by a week from Monday.

MR. R. J. WALSH, C.E., of Rocky Mountain, after being in town yesterday on his way to Moose Jaw. Yesterday he gave a grand panoramic display of his skill at pool at the Grand Central. He was heard to remark as he settled up with the gentlemanly attendant behind the bar, that he never took much stock in editors and furniture manufacturers anyway. There was a gleam in his eye that said the expert of Moose Jaw will quake at their centre, if they have any, before many moons.

MR. BROWNLEE is a pretty efficient engineer, but when he brings his theodolite to bear on a bawky horse he realizes that any of the unprofessional neighbors can "take an observation" that does credit to unscientific skill. It makes most men mad to have to expostulate in public with a bawky horse, when they happen to be in a hurry, but Mr. B. has an angelic temper of which the equine took unfair advantage. We draw the mantle of charity over the subsequent explanations which took place in the privacy of the stable.

FROM OTTAWA we learn by a despatch that Mr. George Bishop, of Winnipeg, was there a few days ago soliciting subscriptions to the stock of a company to be called the Bishop Lithographing and Printing Company. Several persons became stockholders, including Mr. Downey, who invested \$5,000. When he left there Mr. Bishop had secured \$50,000 of stock. Mr. George Flint, formerly of the Montreal Witness, will go to Winnipeg to take charge of the publication of an illustrated newspaper, which is contemplated in connection with the business.

MRS. JARLEY's world renowned enterprise and energy are in the front rank again. She has arrived in Winnipeg and in answer to a telegram sent her by a committee of citizens of Brandon has indicated her willingness to allow the exquisite collection of beautiful water-forged from her stupendous collection lately arrived in Boston to be exhibited in this city. It is to be hoped the good lady can be prevailed upon to reside at the entertainment, as her fund of information regarding the life and doings of the character whom her water-forged represent is an unwritten history only in the possession of Mrs. Jarley.

The immigration boom is exhibiting itself by colonies of tents in the outskirts that remind Brandon pioneers of the scenes of its early history in the remote ages of eighteen months ago. Just between the Mail, establish-ment and the First street bridge, there is an encampment of six families who came from 200 miles below Toronto. They arrived on Thursday with fourteen span of horses four wagons and stock of implements. They have been detained by non-arrival of their baggage, and will settle in the Turtle Mountain district.

A MAIL reporter yesterday interviewed Mr. Brownlee as to the condition of the bridges in the vicinity. The Brandon bridges he reports all right, that built by Mr. Woodworth being unquestionably safe. He yesterday inspected the Little Saskatchewan bridge and found it all right. At Souris City, one span 120 feet in length of that bridge succumbed to the ice. It is the intention to at once replace it by a temporary structure. The County Council yesterday passed a motion exonerating their engineers, Messrs Peniarth and Brownlee, from all responsibility for the Souris City accident, referring back to the representations made by the firm last year, as to the necessity for a longer span. The Council now find that there is both a true and a false economy.

### SPECIAL MEETING OF THE CITY COUNCIL.

DEBENTURES SOLD, at 85c. on the Dollar.

At the special meeting held last evening the following were present: His Worship the Mayor, Aldermen Fraser, Rose, McQuarrie, Cameron, Evans, Sifton, Woodworth, Smart and Angus.

REPORTS.—The Finance committee reported that they had received an offer for the purchase of the whole of the \$150,000 debentures, from Mr. Jukes, on behalf of the Imperial Bank of Canada, at 85 c. on the dollar, and recommended the acceptance of the same.

The Mayor read a communication from Messrs Drummond Bros., who have been trying to negotiate the debentures, but as yet without success; however they expected to be in a position to make an offer in a few days.

Ald. Sifton wished to know if the offer of 85 c. was met.

Ald. Smart understood that it was, and in moving the adoption of the report said that \$127,000 would be the actual sum realized by the sales.

The Mayor said that as the question was a grave one he would like to hear the opinion of each Alderman on the subject.

Ald. Angus seconded the adoption of the report, and said that as the coupons were to be made payable here, and the business transacted in the city, thereby saving all expenses, commissions, and exchange charges, the offer was nominally as good as 87 1/2 c. payable anywhere else.

Ald. Woodworth regretted that the offer was so low, as the credit of the city may be materially injured thereby. He thought the rate of interest should have been fixed at a higher rate, so as to secure a better rate on the dollar, and agreed with the previous speaker, that 85 c. on the dollar, net, coupons payable here, and business all being transacted in the city, under the offer really worth 87 1/2 c. He favored the acceptance of the offer.

Ald. Fraser thought the matter should be allowed to remain in abeyance for a few days, until Messrs Drummond Bros. were heard from.

Ald. Sifton was not in favor of selling at 85 c. and thought that a better offer could be had.

Ald. Rose favored accepting the offer, as

85 c. net, coupons payable here, was equal to considerably more payable elsewhere.

Ald. Fraser thought that no higher offer could be had, and favored accepting the 85 c. The Mayor said that if an offer was received from Messrs Drummond Bros., it would in all probability be in sterling, with commissions and exchange charges to pay, and that there would be considerable delay in having the matter closed, so that the present offer would be preferable.

The report was adopted by a vote of six to three, the nays being Alds. Cameron, Evans and Sifton.

Smart—Angus.—That the clerk be instructed to inform Mr. Jukes that his offer on behalf of the Imperial Bank of Canada for the whole of the \$150,000 issue of City of Brandon debentures at 85 c. on the dollar has been accepted.—Carried.

Ald. Fraser thought the offer should be accepted provided the Imperial Bank pays the \$30,000 dollar note in Winnipeg to-morrow, resolution was amended accordingly and passed.

Evans—Angus.—That the by-law to raise \$50,000 on debentures for the purpose of building a Court House, be read the first time.—Ordered to be read.

A rather spirited discussion then ensued between Alds. Angus, Fraser, and Sifton, in reference to the Provincial Government's willingness to pass the necessary legislation to enable the City Corporation to recover from the other municipalities in the electoral division their share of the costs.

Angus—Woodworth.—That the Mayor be instructed to write to the Minister of Public Works, informing him that the by-law had been submitted, and asking him if the Government would pass the required legislation.—Carried.

The meeting then adjourned.

### Strangers in the City.

AT THE GRAND VIEW HOTEL.—C. F. Bond, Winnipeg; V. May, Ottawa, Ont.; D. McKean, John W. Peck, C. W. Milestone, W. Thomas Heron, Winnipeg; D. S. Scott, R. J. Walsh, Winnipeg; C. Weston, Bogot, Sussex, England.

AT THE GRAND CENTRAL.—N. C. Newman, John McNaught, Lewis Schofield, Rapid City; W. W. Johnston, Robert Ruliven, J. S. Reid, Winnipeg; W. M. Jackson, Broadview; Geo. Armstrong, D. A. Yeomans, Griswold.

ARRIVALS.—W. H. Scott, of the firm of Scott & Puley just returned from Eastern markets, completing spring purchases, he has brought with him at great expense, a large stock of choice goods such as Black & Colored Silks, Brocade Hattings, Real and Spanish lace, jetted ornaments, Lace & Silk Ties, Dress goods Ribbons, fine cotton & Lisle Thread Hosiery, and a host of other goods. Ladies are invited to inspect our stock.

Several offers will be made of land for garage ground for the city.

Messrs McDonald & McPherson will remove their factory to Eleventh street, as soon as their machinery arrives.

Men working along Rosser Ave. are erecting awnings, and preparing for the scorching rays of the summer sun.

There are quite a number of immigrants in the Government reception rooms in this city at present.

G. N. GILCHRIST.

### OTHER FACTS ABOUT WIRES.

More than 200 telegraph wires cross Broadway at Fulton street, roofing over the great thoroughfare as a giant cobweb. There is in New York a constantly growing host of corporations whose wires form networks of this sort, in most places upheld by rough-hewn poles. Among these are ten telegraph companies and a score of electric lighting, telephone and burglar alarm companies. Very many big business establishments own private wires. Of all the concerns who use the streets in this way only the police and fire telegraph systems are public establishments. The almost innumerable wires belonging to all these companies necessitate frequent attention. Frequent changes in the systems produce wires that, though left standing, are disused. These are called lead wires. Each company keeps a chart of its wires, and whenever the use of any wire is discontinued the fact is noted on the chart, so that when occasion requires it the wire may be used again. When old wires are replaced by new the old wire is collected and sold. One thoughtful member of the Farmers' Club has bought hundreds of miles of these old wires, which he uses for training grapevines. The line men of the different telegraph companies are on the alert not only for dead wires, but for what are called skin wires, that is, wires that are put up without authority. Whenever these are discovered they are unceremoniously cut down. Where they come from or who puts them up it is sometimes impossible to tell. They make their appearance frequently, and it is no small part of the line men's duty to look out for them.—New York paper.

### Tenders for Sale,

The undersigned will receive tenders for the stock of

JAMES McNICHOL.
